

Process in Main Memory and Ready and Waiting for execution is kept on | UGC NET

UGC NET 2018 :

A process residing in Main Memory and Ready and Waiting for execution, is kept on

- (a) Execution Queue
- (b) Job Queue
- (c) Wait Queue
- (d) Ready Queue

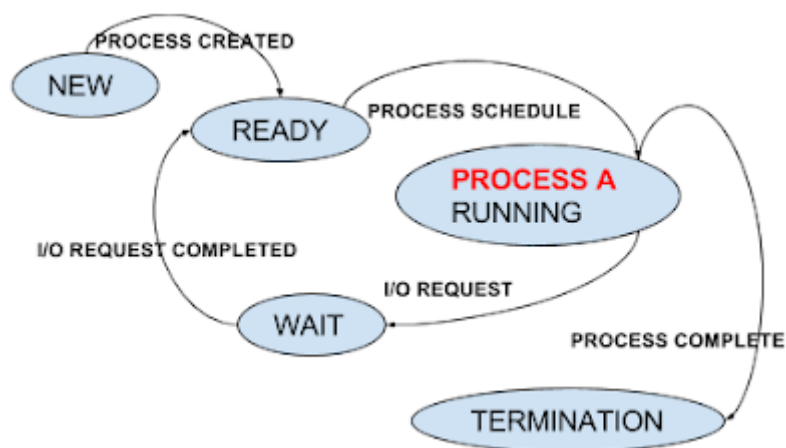

Solution :

The processes that are residing in main memory and are ready and waiting to execute are kept on a list called the ready queue.

State	Present in Memory
New state	Secondary Memory
Ready state	Main Memory
Run state	Main Memory
Wait state	Main Memory
Suspend wait state	Secondary Memory

Process in Main Memory and Ready and Waiting for execution is kept on | UGC NET

Suspend
ready
state Secondary
Memory
